

HZ-2T

Two-Cycle Engine Oil

Description

It is a mineral two-cycle engine oil containing high-performance additives, produced for air-cooled, two-cycle small engines.

Applications

It is used by mixing with gasoline in air-cooled, two-cycle engines such as chainsaws and lawn mowers with engine displacement smaller than 50cc. Unless otherwise recommended, the suggested mixing ratio is 1:20. Consult your engine manufacturer for the appropriate mixing ratio.

Benefits

- With its active cleaning agents, it keeps the engine clean by preventing the formation of deposits and sludge.
- It protects pistons against friction, wear, and rust with its excellent lubrication properties.
- It reduces maintenance costs.
- It facilitates easy ignition.

Typical Specifications *

Density, 15 °C, kg/ m ³	ASTM D4052	0,860
Flash Point, COC, °C	ASTM D92	250
Viscosity, 40 °C, mm ² /s		25
Viscosity, 100 °C, mm ² /s	ASTM D445	4,80
Viscosity Index	ASTM D2270	121
Pour Point, °C	ASTM D97	-12

* Values shown may differ between productions.
