

SAFETY DATA SHEET KALIP YAĞI M 26

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification of th	e substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	KALIP YAĞI M 26
1.2. Relevant identified uses of	the substance or mixture and uses advised against
Identified uses	Industrial oil
Uses advised against	Use only for intended applications.
1.3. Details of the supplier of th	ne safety data sheet
Supplier	PETROL OFİSİ A.Ş. Ünalan Mahallesi, Libadiye Caddesi No: 82F Kat: 2-3-4, 34700 Üsküdar/ Istanbul Tel: +90 850 339 1919 Fax: +90 216 275 3854 madeniyag@petrolofisi.com.tr
Contact person	Customer Services: madeniyag@petrolofisi.com.tr
1.4. Emergency telephone num	nber
Emergency telephone	Madeni Yağ Customer Services: 0850 339 1919 (working hours)
National emergency telephone number	National Poison Consultance Center: 114 Emergency Medical Services: 112
SECTION 2: Hazards identifica	ition
2.1. Classification of the substa	ance or mixture
Classification (EC 1272/2008)	
Physical hazards	Not Classified
Health hazards	Carc. 1B - H350
Environmental hazards	Not Classified
2.2. Label elements	
Hazard pictograms	

Signal word	Danger
Hazard statements	H350 May cause cancer.

Precautionary statements	P201 Obtain special instructions before use. P202 Do not handle until all safety precautions ha P280 Wear protective gloves/ protective clothing/ P308+P313 IF exposed or concerned: Get medic P405 Store locked up. P501 Dispose of contents/ container in accordance	' eye protection/ face protection. al advice/ attention.
Contains	Ekstraktlar (petrol),hafif parafinik distilat solvent (C20-C30)
2.3. Other hazards		
SECTION 3: Composition/infe	ormation on ingredients	
3.2. Mixtures		
Distillates (petroleum), hydro	ptreated heavy paraffinic	95-100%
CAS number: 64742-54-7	EC number: 265-157-1	REACH registration number: 01- 2119484627-25-0033
Classification Not Classified		
Ekstraktlar (petrol),hafif para	finik distilat solvent (C20-C30)	1-5%
CAS number: 64742-04-7	EC number: 265-103-7	
Classification Carc. 1B - H350 Aquatic Chronic 3 - H412		
The full text for all hazard sta	tements is displayed in Section 16.	
Composition comments	The DMSO contents of some substances are class according to IP 346.	ssified by the manufacturer as <3%
Ingredient notes	See Section 8 for occupational exposure limits.	
SECTION 4: First aid measur	res	
4.1. Description of first aid me	pasures	
General information	If in doubt, get medical attention promptly.	
Inhalation	Move affected person to fresh air and keep warm breathing. Place unconscious person on their side breathing can take place. Loosen tight clothing su medical attention promptly.	e in the recovery position and ensure
Ingestion	Never give anything by mouth to an unconscious the direction of medical personnel. If in doubt, get	
Skin contact	Brush off loose particles from skin. Wash skin the attention if symptoms are severe or persist.	proughly with soap and water. Get medical
Eye contact	Remove contact lenses, if present and easy to do medical attention.	o. Continue rinsing. Do not rub eye. Get
Protection of first aiders	First aid personnel should wear appropriate prote	ective equipment during any rescue.
4.2. Most important symptom	s and effects, both acute and delayed	
General information	No specific symptoms known.	

Inhalation	No specific symptoms known.
Ingestion	No specific symptoms known.
Skin contact	No specific symptoms known.
Eye contact	No specific symptoms known.
4.3. Indication of any immediat	te medical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
Specific treatments	Treat symptomatically.
SECTION 5: Firefighting meas	ures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with foam, carbon dioxide or dry powder.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	Not known.
Hazardous combustion products	Yanma sonucu zehirli gazlar oluşur. Yüksek sıcaklıklarda yanabilir. A complex mixture of airborne solids, liquids and gases can be released. Carbon monoxide (CO). Oxides of sulphur. Nitrous gases (NOx). Carbon dioxide (CO2). Unidentified organic or inorganic compounds.
5.3. Advice for firefighters	
Protective actions during firefighting	No action shall be taken without appropriate training or involving any personal risk.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Use special protective clothing.
SECTION 6: Accidental releas	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet.
For non-emergency personnel	Necessary precautions should be taken to ensure that non-educated personnel do not intervene.
For emergency responders	Stop the leakage source if it can be done without risk.Limit spillage to prevent further contamination of soil, surface or ground water.Remove any spilled material as soon as possible by following the precautions in the section Exposure Controls / Personal Protection.Use suitable techniques such as non-flammable absorbent materials or pumping.When possible or appropriate, remove the contaminated soil from the area.Place contaminated products in disposable boxes and dispose of in accordance with regulations.If a heated material is spilled, allow it to cool before handling with disposal methods.
6.2. Environmental precautions	_
Environmental precautions	The product contains a substance which is very toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment. Apply protective methods to prevent spilled material from entering into water sources, water channels, sewers and soil.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up	Small spill : Stop leak if without risk. Move containers from spill area. Absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. Large spill : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water sources, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may be pose the same hazard as the spilled product.
6.4. Reference to other sectio	ns
Reference to other sections	For personal protection, see Section 8. For waste disposal, see Section 13. See Section 1 for emergency contact information. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards.
SECTION 7: Handling and sto	orage
7.1. Precautions for safe hand	lling
Usage precautions	Do not handle until all safety precautions have been read and understood. Avoid exposure - obtain special instructions before use. Wear protective clothing as described in Section 8 of this safety data sheet. Avoid breathing gas, fume, vapours or spray. Protect from freezing and direct sunlight. Avoid release to the environment.
Advice on general occupational hygiene	Do not eat, drink or smoke when using this product. Good personal hygiene procedures should be implemented. Wash contaminated skin thoroughly after handling. Take off immediately all contaminated clothing and wash it before reuse.
7.2. Conditions for safe storage	je, including any incompatibilities
Storage precautions	Store in accordance with national regulations. Protect from freezing and direct sunlight.
Storage class	Chemical storage.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
Usage description	The product must be used as specified in the data sheet.
SECTION 8: Exposure contro	Is/Personal protection
8.1. Control parameters Occupational exposure limits Distillates (petroleum), hydrot	reated heavy paraffinic
Oil mist: TWA: 5 mg/m3 (ACGIH). In no case should this limit be exceeded or the local limit, if it is more restrictive.	
Ekstraktlar (petrol),hafif parafi	nik distilat solvent (C20-C30)
ACGIH TLV/TWA 5 mg/m3 TLV/STEL	

Ingredient commentsNo other information known.Biological limit valuesNo other information known.DNELNo other information known.DMELNo other information known.

10 mg/m3

PNEC

No other information known.

8.2. Exposure controls

Personal protection	Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers. The effectiveness of personal protective equipment, together with other elements, depends on the degree of ventilation. Depending on the particular situation in question, Get professional support. Keep away from foodstuffs, beverages and foods. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Store protective clothing separately.
Eye/face protection	Wear tight-fitting, chemical splash goggles or face shield.
Hand protection	It is recommended that chemical-resistant, impervious gloves are worn.
Other skin and body protection	Wear apron or protective clothing in case of contact.
Hygiene measures	Good personal hygiene procedures should be implemented.
Respiratory protection	Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.
Thermal hazards	If there is a risk of contact with hot product, all protective equipment worn should be suitable for use with high temperatures.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Store in a demarcated bunded area to prevent release to drains and/or watercourses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Viscous liquid.
Colour	Brown.
Odour	Characteristic.
Odour threshold	Inconclusive data.
рН	Scientifically unjustified.
Melting point	-3°C
Initial boiling point and range	Inconclusive data.
Flash point	~ 230°C Cleveland open cup.
Evaporation rate	Data lacking.
Evaporation factor	Data lacking.
Flammability (solid, gas)	Inconclusive data.
Upper/lower flammability or explosive limits	Inconclusive data.

Other flammability	Inconclusive data.
Vapour pressure	Inconclusive data.
Vapour density	Inconclusive data.
Relative density	Inconclusive data.
Bulk density	~ 0,9 g/ml
Solubility(ies)	Insoluble in water.
Partition coefficient	Inconclusive data.
Auto-ignition temperature	Inconclusive data.
Decomposition Temperature	Inconclusive data.
Viscosity	Inconclusive data.
Explosive properties	Inconclusive data.
Explosive under the influence of a flame	Inconclusive data.
Oxidising properties	Inconclusive data.
Comments	No other information known.
9.2. Other information	
Other information	No other information known.
Refractive index	No other information known.
Particle size	No other information known.
Molecular weight	No other information known.
Volatility	No other information known.
Saturation concentration	No other information known.
Critical temperature	No other information known.
Volatile organic compound	No other information known.
SECTION 10: Stability and rea	ctivity
10.1. Reactivity	
Reactivity	This product is stable under normal conditions.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous i	
Possibility of hazardous reactions	No hazardous reaction under normal conditions of storage and use.
10.4. Conditions to avoid	
Conditions to avoid	High temperature, spark and open flames. Avoid exposure to high temperatures or direct sunlight. Static electricity and formation of sparks must be prevented.
10.5. Incompatible materials	
Materials to avoid	Strong oxidising agents. Perchloric acid Aluminium. Chlorates. Nitrates. Peroxides.

10.6. Hazardous decomposition products

Hazardous decomposition Hydrocarbons. Sulfur oxides. Carbon oxide products

SECTION 11: Toxicological int	SECTION 11: Toxicological information	
11.1. Information on toxicological effects		
Toxicological effects	No other information known.	
Other health effects	No other information known.	
Acute toxicity - oral		
Summary	Based on available data the classification criteria are not met.	
Notes (oral LD₅₀)	Based on available data the classification criteria are not met.	
Acute toxicity - dermal		
Summary	Based on available data the classification criteria are not met.	
Notes (dermal LD₅₀)	Based on available data the classification criteria are not met.	
Acute toxicity - inhalation		
Summary	Based on available data the classification criteria are not met.	
Notes (inhalation LC₅₀)	Based on available data the classification criteria are not met.	
Skin corrosion/irritation		
Summary	Based on available data the classification criteria are not met.	
Skin corrosion/irritation	No other information known.	
Animal data	No other information known.	
Human skin model test	No other information known.	
Extreme pH	No other information known.	
Serious eye damage/irritation		
Summary	Based on available data the classification criteria are not met.	
Serious eye damage/irritation	No other information known.	
Respiratory sensitisation	Based on available data the classification criteria are not met.	
Respiratory sensitisation	No other information known.	
Skin sensitisation Summary	Based on available data the classification criteria are not met.	
Skin sensitisation	No other information known.	
Germ cell mutagenicity		
Summary	Based on available data the classification criteria are not met.	
Genotoxicity - in vitro	No other information known.	
Genotoxicity - in vivo	No other information known.	
Carcinogenicity		
Summary	Carcinogenicity	
Carcinogenicity	May cause cancer. Supplier's information.	

Target organ for carcinogenicity	No other information known.
IARC carcinogenicity	Not listed.
NTP carcinogenicity	Not listed.
Reproductive toxicity	Deced on evolution data the classification exiteria are not mot
Summary	Based on available data the classification criteria are not met.
Reproductive toxicity - fertility	No other information known.
Reproductive toxicity - development	No other information known.
Specific target organ toxicity -	single exposure
Summary	Based on available data the classification criteria are not met.
STOT - single exposure	No other information known.
Target organs	No other information known.
Specific target organ toxicity -	repeated exposure
Summary	Based on available data the classification criteria are not met.
STOT - repeated exposure	No other information known.
Target organs	No other information known.
Aspiration hazard	
Summary	Based on available data the classification criteria are not met.
Aspiration hazard	No other information known.
Toxicokinetics	No other information known.
General information	No other information known.
Inhalation	No other information known.
Ingestion	No other information known.
Skin contact	No other information known.
Eye contact	No other information known.
Acute and chronic health hazards	No other information known.
Route of exposure	No other information known.
Target organs	No other information known.
Medical symptoms	No other information known.
Medical considerations	No other information known.
Toxicological information on in	gredients.

Distillates (petroleum), hydrotreated heavy paraffinic

Acute toxicity - oral
Notes (oral LD₅₀)
Acute toxicity - dermal

LD₅₀ >2000 mg/kg, Oral,

Notes (dermal LD	D₅o) LD₅₀ >2000 mg/kg, Dermal,		
Carcinogenicity			
Summary	The base oils in the product content contain less than 3% DMSO according to IP 346.		
SECTION 12: Ecological inform	nation		
Ecotoxicity	The product contains a substance which is very toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.		
Ecological information on ingredients.			
Distillates (petroleum), hydrotreated heavy paraffinic			
Ecotoxicity	May be harmful to aquatic organisms. Spills form film layer on water surface and prevent oxygen transfer		
12.1. Toxicity			
Toxicity	Based on available data the classification criteria are not met.		
Acute aquatic toxicity Summary	Based on available data the classification criteria are not met.		
Acute toxicity - fish	No other information known.		
Acute toxicity - aquatic invertebrates	No other information known.		
Acute toxicity - aquatic plants	No other information known.		
Acute toxicity - microorganisms	No other information known.		
Acute toxicity - terrestrial	No other information known.		
Chronic aquatic toxicity			
Summary	Based on available data the classification criteria are not met.		
Chronic toxicity - fish early life stage	No other information known.		
Short term toxicity - embryo and sac fry stages	No other information known.		
Chronic toxicity - aquatic invertebrates	No other information known.		
Toxicity to soil	No other information known.		
Toxicity to terrestrial plants	No other information known.		
12.2. Persistence and degrada	ability		
Persistence and degradability	No other information known.		
Phototransformation	No other information known.		
Stability (hydrolysis)	No other information known.		
Biodegradation	No other information known.		
Biological oxygen demand	No other information known.		

KALIP YAĞI M 26				
Chemical oxygen demand	No other information known.			
Ecological information on ingredients.				
	Distillates (petroleum), hydrotreated heavy paraffinic			
Biodegradation	Not expected to be readily biodegradable.			
12.3. Bioaccumulative potential				
Bioaccumulative potential	No specific test data are available.			
Partition coefficient	Inconclusive data.			
Ecological information on ingr	redients.			
	Distillates (petroleum), hydrotreated heavy paraffinic			
Bioaccumulative potential Potentially bioaccumulating.				
12.4. Mobility in soil				
Mobility	No other information known.			
Adsorption/desorption coefficient	No other information known.			
Henry's law constant	No other information known.			
Surface tension	No other information known.			
Ecological information on ingredients.				
	Distillates (petroleum), hydrotreated heavy paraffinic			
Mobility	Liquid under most environmental conditions. Floats on water. If spread into ground the groundwater may be polluted.			
12.5. Results of PBT and vPvB assessment				

Results of PBT and vPvB No other information known. assessment

Ecological information on ingredients.

Ekstraktlar (petrol), hafif parafinik distilat solvent (C20-C30)

Results of PBT and vPvB Not applicable. assessment

12.6. Other adverse effects

Other adverse effects

No other information known.

SECTION 13: Disposal considerations

13.1. Waste treatment methods		
General information	The generation of waste should be minimised or avoided wherever possible.	

Disposal methods Reuse or recycle products wherever possible. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Collect and place in suitable waste disposal containers and seal securely. Only store in correctly labelled containers. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

Waste class	The waste code classification is to be carried out according to the European Waste Catalogue (EWC).	
SECTION 14: Transport inform	nation	
General	Not regulated.	
Road transport notes	Not classified.	
Rail transport notes	Not classified.	
Sea transport notes	Not classified.	
Air transport notes	Not classified.	
14.1. UN number		
Not applicable.		
14.2. UN proper shipping name		
Not applicable.		
14.3. Transport hazard class(es)		
Not regulated.		
14.4. Packing group Not applicable.		
14.5. Environmental hazards		
Environmentally hazardous substance/marine pollutant Not applicable.		
14.6. Special precautions for u	Iser	
Not applicable.		
14.7. Transport in bulk accord	ing to Annex II of MARPOL and the IBC Code	
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.	
SECTION 15: Regulatory information		
15.1. Safety, health and enviro	onmental regulations/legislation specific for the substance or mixture	
National regulations	 T. C. Regulation on the Classification, Labeling and Packaging of Substances and Mixtures No. 28848, dated 11 December 2013, by the Ministry of Environment and Urbanization. T. C. Ministry of Environment and Urbanization Regulation on Safety Data Sheets on Hazardous Substances and Mixtures T. C. Ministry of Environment and Urbanization Guidelines for Safe Storage of Chemicals T. C. The Ministry of Labor and Social Security, Regulation on the Use of Personal Protective Equipment at Workplaces No. 28695 dated July 2, 2013 	
EU legislation	https://echa.europa.eu	

15.2. Chemical safety assessment

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	 E.U.: European union DMSO: Dimethyl sulfoxide KKE: Personal protective aquipment STEL: Short term exposure limit T.C.: Republic of Turkey TWA: Workplace exposure limits UZEM: National Poison Information Center ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. CAS: Chemical Abstracts Service. GHS: Globally Harmonized System. IATA: International Air Transport Association. PBT: Persistent, Bioaccumulative and Toxic substance. REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006. vPvB: Very Persistent and Very Bioaccumulative. MARPOL 73/78: International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. IARC: International Agency for Research on Cancer.
Classification abbreviations and acronyms	Carc. = Carcinogenicity Aquatic Chronic = Hazardous to the aquatic environment (chronic)
General information	Only trained personnel should use this material. This document contains important information to ensure the safe storage, handling and use of this product. The information in this document should be brought to the attention of the person in your organisation responsible for advising on safety matters. MSDS Distribution : The information in this document should be made available to all who may handle the product. Uses and Restrictions : This product must not be used in applications other than those recommended in Section 1, without first seeking the advice of the supplier. This product is not to be used as a solvent or cleaning agent; for lighting or brightening fires; as a skin cleanser. Disclaimer : This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
Key literature references and sources for data	This SDS is prepared based on the information received from raw material suppliers.
Classification procedures according to Regulation (EC) 1272/2008	Carc. 1B - H350: Calculation method., Supplier information
Training advice	Untrained personnel should not use.
Revision comments	This is the first issue.
Issued by	Sevda ŞAHAN Certified Safety Data Sheet Preparer (Certificate Id:GBF01.23.08;Dates: 03.11.2018-03.11.2021)
Revision	0
Supersedes date	22/03/2021
SDS number	20774
Hazard statements in full	H350 May cause cancer. H350 May cause cancer if swallowed. H412 Harmful to aquatic life with long lasting effects.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
