

EXTENDED LIFE COOLANT

SNF Type Extended Life Engine Cooling Liquid

Description

It is a long life cooling liquid and formulized with organic acid technology which protects engine temperature as ideal working condition. It protects all iron and aluminum engines as perfect against to rust and corrosion. It does not contain nitrite, boron, phosphorus, silicate and amine according to environmental health arrangements.

Applications

Suitable for high performance gasoline and diesel engine passenger cars, SUV, off-road vehicles and pick-ups.

Benefits

- Longer life than conventional antifreeze.
- It protects engine against cold and hot due to thermal stability and heat transfer specification.
- It prevents freezing of engine cooling liquid at cold weather.
- It retards boiling of engine cooling liquid at warm weather.
- It protects all iron and aluminum engines for long life against corrosion.
- It is compatible with all seal elements.
- It prevents foam formation.
